Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 9, drawn to the system and method of emulation by reformatting via a precomputed translation table, classified in class 463, subclass 1.
- II. Claims 2 and 10, drawn to the system and method of emulation with images changed during a display frame, classified in class 463, subclass 31.
- III. Claims 3 and 11, drawn to the system and method of emulation using a jump table, classified in class 463, subclass 1.
- IV. Claims 4 and 12, drawn to the system and method of emulation using BLIT operation, classified in class 463, subclass 1.
- V. Claims 6 and 14, drawn to the system and method of emulation presenting a subset of a seat-back display unit display area, classified in class 463, subclass 31.

Art Unit: 3713

VI. Claims 7 and 15, drawn to the system and method of emulation that models a platform with a sequential state machine, classified in class 463, subclass 1.

VII. Claims 8 and 16, drawn to the system and method of emulation that selectively disables the display update, classified in class 463, subclass 31.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I through VII are unrelated.

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation to achieve an emulation of a Z80 microprocessor on a target platform, such as personal computer.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Faris on 05-12-2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3713

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

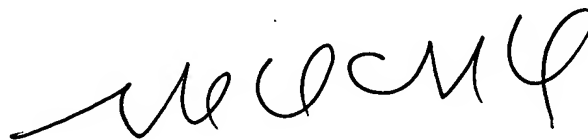

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael O'Neill whose telephone number is 571-272-4442. The examiner can normally be reached on Monday through Friday 8:30 am to 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Xuan M. Thai can be reached on 571-272-7147. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
